

Rize Tensioning Tool

PART No: 30341

FEATURES

Rize Tensioning Tool

Colour: Black with Red Handle

Material: Steel

ADDITIONAL INFORMATION

As in all aspects of construction there may be times when you need to put a little more tension on the cable than is possible with just your hands. The Rize Tensioning Tool is for these occasions. It takes all sizes of Kwik-Loc's and up to 4.8mm (3/16") cable. Designed to apply up to 270kg of tension by holding the Kwik-Loc body and pulling the cable through using the Cam & Anvil. This powerful lever action will tension & retension the cable in seconds.
