

GE Hands Free Knee Operated Timeflow Valve

PART No: TP08045

FEATURES

Avoiding hand contact with tapware helps reduce the risk of cross contamination, which is particularly important in food preparation and processing plants.

The soft spring is perfect for hands-free operation and is easily mounted. It has a self-closing function which reduces water and energy wastage.

ADDITIONAL INFORMATION

Features

- Timed flow shut off results in major water and electrical savings.
- Hands free operation supports infection control and saves time in cleaning.
- Robust lever that can take heavy usage.
- Brass construction.
- Chrome plate finish.

Specifications

- Recommended Pressure - 300kPa
- Recommended Temperature - 70°C Max
- Minimum Pressure -100kPa
- Maximum Pressure - 500kPa
- Time is based on 500 kPa, 5 LPM @ 22°C
- Use of Strainers recommended
